

GLASS WASHING BRUSHES

Felton Brushes Ltd manufactures and refurbishes glass washing brushes. Our experience, technical staff, and quality make us your ideal glass washing partner. We have experience with many different glass washing machines including Billco, Forel, Prestik, and more.

We run some of the most automated and advanced brush making platforms available in the world today. We also offer a full service machine/weld shop that can handle any journal repairs or manufacture new ones all while maintaining a competitive price.

Refurbishing: To save you money we offer a rewinding/refurbishing service. Old worn brushes are stripped and rebuilt onto the existing core. Journals are inspected and any repairs completed. Refurbishing will save you money!

Location: Felton Brushes Ltd is located in Hamilton ON. As a Canadian manufacturer this allows you to save money on your shipping costs and decrease your lead times.

Lead Time: All raw materials are in stock! We offer 3 standard lead times (pricing is reflective).

1. 24hr emergency turn around service.
2. 1 week turnaround to fit into your shutdown.
3. 3-4 weeks standard lead time.

Felton Brushes has been manufacturing industrial brushes in Hamilton ON Since 1933. Our focus is on quality and our automation allows us to be priced competitive!
